CAREER OBJECTIVE

Highly motivated and skilled Information Technology student with a focus on UI/UX and web or software development. Eager to apply technical and design skills in a practical On-the-Job Training (OJT) setting, adapt quickly to new tools and technologies, and contribute to the development of user-focused systems aligned with company goals. Open to learning quality assurance practices and collaborating with teams to ensure efficient, user friendly solutions.

TECHNICAL SKILLS

- Programming (Java, C#, Python)
- Web Development (HTML/CSS/JS, Tailwind & React, Wordpress)
- System & Hardware (Hardware troubleshooting, OS installation)
- Version Control (Git/GitHub)
- UX Design Tools (Figma, Photoshop, Adobe Illustrator, Canva)
- Database Management: (SQL/MySQL)
- IT Concepts: (Cybersecurity awareness, virtual machines (VMs) and virtualization concepts)

SOFT SKILLS

- Good communication and interpersonal skills
- Problem-solving and logical thinking
- Willingness to learn and adapt
- Team collaboration
- Time management

PROJECTS

Programmer – Game Classroom Project

Aug - Nov 2025

- Develop a game using Unity, collaborating with the main programmer and the group.
- Implemented scripts using C# and helped integrate features into the game environment.
- Conducted testing and debugging to ensure smooth gameplay and functionality.

System Analyst – Capstone Project

Nov 2024 - Oct 2025

(<https://greensync.garden/>)

- Analyzed system requirements and design the Admin Modules of the web application.
- Created flowcharts, process diagrams, and documentation for system design.
- Conducted testing to ensure system functionality and usability.

EXPERIENCE

Game Tester – Yield Guild Games (YGG)

2024 - 2025

- Tested gameplay mechanics and user interactions to identify bugs and experience issues.
- Delivered structured feedback and improvement suggestions focused on usability, balance, and player experience.

Data Encoder – Part Time (eCopy Corporation - Makati City)

June – August 2023 | June – August 2024

- Encoded, processed, client documents and records using internal data systems with high accuracy.
- Performed data verification and quality checks to ensure correctness, consistency, and completeness of information.

EDUCATION

TERTIARY

2022 - Present

- STI College San Jose del Monte

SENIOR HIGH SCHOOL

2020 - 2022

- AMA Computer College | High Honors
